

## SickKids Paediatric Emergency Medicine Conference 2017

Our conference offers an engaging exchange of knowledge, ideas and innovations with world renowned expert faculty and evidence-based clinical applications for practice. This year the conference will focus on critical knowledge and skills to allow you to deliver high quality care to children in the acute care setting.

### Conference topics include:

- Dermatology, sedation controversies, neonatal emergencies, orthopaedic trauma management, difficult paediatric airway, toxicology, ultrasound and more!
- My favourite papers 2017
- Ask the experts
- Fast and furious sessions

### Keynote speakers:

- Dr. Anthony G. Crocco, McMaster Children's Hospital
- Dr. Kevin C. Osterhoudt, The Children's Hospital of Philadelphia
- Dr. Kathy Boutis, The Hospital for Sick Children

### Pre-Conference Course:

- Advanced Paediatric Life Support Course (APLS) - October 24-25, 2017
